Project Name	Calculating Family Expenses

Problem Statement:

The project aims to develop a comprehensive expense calculation system using Service Now. This system will enable users to track and manage family expenses efficiently. It will include features such as expense categorization, budget setting, real-time tracking, and reporting capabilities. Utilizing Service Now's robust platform, the project will ensure seamless integration, user- interface, and scalability to accommodate varying family sizes and financial complexities. The end goal is to empower users with the tools they need to make informed financial decisions and promote well-being within the family unit.
